# KENYA BUREAU OF STANDARDS BUSINESS CONTINUITY AND INFORMATION SECURITY INTEGRATED MANAGEMENT SYSTEM POLICY

Kenya Bureau of Standards (KEBS) is committed to implement robust and effective Business Continuity and Information Security Integrated Management System (BCIS-IMS). These are key mechanisms to build organizational resilience, react, and respond to incidents and emergencies while protecting information, information assets, information processing facilities, life, wellbeing of staff and stakeholders from all threats. This will enable KEBS to prepare, protect against, restore and deliver continuity of prioritized activities in Standardization, Metrology & Conformity Assessment services and related enabling activities in the event of a disruptive incident and ensure preservation of Confidentiality, Integrity, and Availability (C.I.A) of information, cyber security and privacy protection.

KEBS commits to conform to ISO 22301 and ISO/IEC 27001 requirements, comply with applicable legal, regulatory, contractual and own requirements; and continually improve BCIS-IMS.

This policy shall be reviewed after every three years or when significant changes occur.
